Food reimbursement rates

For the purpose of planning our menus and setting a budget I would propose the following;

\$2 – breakfast

\$3 – lunch

\$5 – dinner

This would be the target charge per scout. The idea is if we formalize this and standardize around the numbers then the cook has something to work with right away, each scout can expect to be charged no MORE than \$10/day for food and we could use this standard to reimburse the cooks (something we are/aren't doing consistently now?). The other thought is that it sets a CAP for the amount of reimbursement unless a special meal is wanted by entire patrol and they sign off on the extra charge ahead of time.
